

# How would you like your windows and conservatory glass to look?

To ensure all your glass at home stays as easy to clean and bright as the day it was installed, giving optimal clarity with the least possible effort...

## ASK FOR CLEARSHIELD LOW-M® GLASS

*The incredibly effective way to protect your windows, doors and conservatory.*

Cleaning glass is time-consuming and can be very hard work, especially on conservatory roofs.

**Many types of dirt attach firmly to glass:**

- salt/hard water
- traffic pollution
- tree sap
- bird lime

They deposit on the glass, causing unsightly stains that spoil the appearance and clarity of your windows, doors and conservatory.

**ClearShield protection for glass provides a surface that:**

- Resists staining
- Is easier to clean
- Eliminates the need for harsh and abrasive cleaning products

## Fact: Windows get dirty

Glass is a sensitive material that reacts with its environment. Dirt can quickly build up on your windows. Over time, unprotected glass suffers permanent bonding of these residues causing staining and physical damage. Often washing does not mean cleaning. This is why when windows look dull, it becomes very difficult, if not impossible, to bring back the shine, no matter how hard you try! Regular washing will simply not be effective, spoiling the appearance of your windows.

## What is ClearShield and why does it work?

Working just like 'non-stick' cookware, ClearShield acts as a lasting protective barrier on the surface of the glass. It stops grime and other residues from bonding with the glass.

Its unique 'non-stick' action makes it difficult for dirt to build up quickly and bond to its surface.

## Specially developed Clean-All for ClearShield Glass

Cleaning your windows will no longer require harsh and abrasive materials, which may be harmful to you and the environment. Clean-All for ClearShield Low-M Glass has been specially developed to gain maximum performance for a sparkling look. It is particularly effective for removing nicotine, grease, finger marks and general dirt from your glass.

Please visit [www.clearshield.biz](http://www.clearshield.biz) to order Clean-All securely online (UK residents only).

## Remember, ClearShield in action:

- Saves time and effort
- Maintains clarity of the glass
- Keeps your windows looking like new

## Protect your investment!

Insist on having ClearShield on all your glass...

*you deserve nothing less!*

## Peace of mind – guaranteed.

With ClearShield protection, we offer a warranty for 15 years, providing Ritec's recommended after-care programme is followed\*.

## Why is choosing ClearShield Low-M® (Low-Maintenance) Glass really important?

Choosing ClearShield really does make a difference. Award-winning ClearShield has more than 25 years of experience worldwide. It is the only glass that is both easy to clean and provides durable protection.

## So how can we prove this?

We've compared ClearShield Glass with ordinary unprotected glass by exposing them to water vapour and alkalinity in laboratory conditions.

Unprotected Glass

ClearShield Low-M® Glass

The white patches and dots are hard water stains built up through an accelerated test.

## The Results

ClearShield Low-M® Glass suffers less limescale build-up and is significantly much easier to clean. Its 'non-stick' barrier means that the same will apply to all other dirt factors that can damage glass.

\* Please refer to our after-care programme for warranty information.
